

NAVIGATOR™ HDD SIMULATOR

HORIZONTAL DIRECTIONAL DRILL

AUTHENTIC OPERATOR'S STATION. The operator's station on the Vermeer Navigator HDD simulator features simplified, common controls and an authentic Navigator® HDD drill seat. Additionally, it provides a great operator-friendly workstation layout for full, dual-screen viewing.

COMMON CAN CONTROLS. The Vermeer Navigator HDD simulator features controls that are the same across our Navigator HDD lineup so you can more easily transition from the simulator to a drill.

VIRTUAL DRILLING, HANDS-ON TRAINING. Help your new crew members take the next step in becoming a drill operator. Get realistic, hands-on training of basic drill functions and the concept of drilling before ever sitting on a real drill.

CROSS SECTION OF BORE PATH. View your actual drilling path on screen in real-time compared to the bore path planned within the program.

REAL-TIME FEEDBACK. Receive real-time, on-screen feedback on your drilling techniques. Get scored on missed grease, mud flow, dropped rods, makeup torque and more.

TRAIN OPERATORS IN CONTROLLED ENVIRONMENT. Minimize risk of damaging equipment or existing utilities by training new operators with a simulator before getting on a drill. Using the simulator, the operator has the ability to experience certain replicated drill operations assisting in reducing actual on-drill training time.
