TEC® PLUS ELECTRONIC CONTROL SYSTEM. The operating system communicates with multiple control modules located throughout the machine for real-time performance data and advanced troubleshooting capabilities.

ELEVATING ENCLOSED CAB. The cab features dual air ride suspension seats, dual self-contained heating and cooling systems and sound attenuating foam. It is also a rollover protective module (ROPM) and falling object protective structure (FOPS).

ONE CAT IS NOT ENOUGH. The T1655III features two CAT C18 ACERT engines providing 1200 hp (895 kW) to muscle through the toughest conditions.

VANTAGE TRACK. Relax in the confidence that your investment is protected and your entire closed loop hydrostatic system is covered with either a 3-year/3000-hour or 5-year/5000-hour Extended Care Service program.

MOBILITY AND STABILITY. The T1655III dual tracks and low center of gravity allow for easy maneuverability and stability over the changing and diverse surface conditions.

FULL FUNCTION REMOTE CONTROL. The T1655III is available with a wireless remote control that can provide full operator function remotely.
